Projects

Bijou Budget

bijoubudget.be

ReactJS & Java Spring Boot

- Developed an intuitive budget tracking website in which users can add monthly expenses, log transactions, and filter by month, year, and expense
- Implemented in ReactJS and Java Spring Boot with a MySQL database
- Deployed using AWS (S3, Elastic Beanstalk, Relational Database Service)

Weather & Traffic App

shorturl.at/fhyHY

Python

- Composed a python script that sends daily weather and traffic SMS notifications
- Uses the Twilio API to facilitate text messaging, the OpenWeatherMap API to collect weather data, and the TrueWay Directions API to retrieve traffic time from my house to my university
- Hosted on PythonAnywhere

My Personal Website

xgill15x.github.io/JasonGill

ReactJS

- Built a personal website using ReactJS to showcase my portfolio
- Integrated EmailJS within the contact form for a refined user experience
- Deployed on Github Pages
